Special solutions

Digital Labelling & Signage

The smart way to communicate - Digital Labelling

- All price tags (labels) always display up-to-date information
- Price changes can be implemented in seconds
- Time savings and fewer errors in labelling
- Professional appearance thanks to uniform, modern designs
- Reduction in material usage

Why choose **contact DIGITAL®**

- Compatible with simple data sources such as Excel files – all the way to integration with ERP and POS systems
- contact DIGITAL software includes free layout templates and interfaces – provided at no cost when purchasing labels
- One-time software installation – no rental or licensing fees, no mandatory cloud usage
- Secure data transmission via encrypted radio frequency

Retail Merchandising Systems

The brand for successful selling - **promoflex®** by **contact**

promoflex products enhance product presentation, boost sales and create a better shopping experience. We are happy to offer our promoflex bestsellers or implement customised special projects tailored to your needs. We look forward to your enquiry!

Poster Frame Systems

- Durable frame systems available in a wide range of colours and formats
- Matching accessories such as inserts and fixings

Fresh Produce Labelling

- Smart card printers with software and accessories
- Plastic cards and printable backers
- High-quality card holders and accessories

Acrylic & Plastic Bent Parts

- Practical information displays such as acrylic stands & clear interchangeable frames
- Custom-printed pavement signs and information boards

Shelf Edge Strips

- Suitable for various shelving systems
- Multiple fixing options
- For label heights from 26 – 74 mm

pick&change® System

Labelling made easy!

pick&change makes product labelling easier, faster and more secure. It consists of a specially designed aluminium rail and matching poster displays, which can be inserted into the rail without the need for hooks or eyelets. This clever combination allows you to change your price and promotional posters effortlessly.

The smart hanging system pick&change:

- Intuitive plug & see system
- Exclusive contact in-house development
- Effortless changing of price and information boards
- High performance for product or price changes
- Particularly efficient for large-scale product placements
- Ideal for food, beverage and DIY stores as well as garden centres
- For warehouse and shipping organisation
- Flexible mounting options

Floor construction / Floor space solution

Special placement solution

Your partner for labelling

Reliable Solutions & Expert Support

Quality

- Our manual labelers, labels and labelling machines are quality products made in Hirschhorn, Germany
- Certified quality management (ISO 9001:2015)

Flexibility

- With our in-house prepress and label production, we can respond flexibly and deliver quickly
- We develop our own products and tailor-made solutions for our customers

Service

- Our staff are happy to assist you – by phone, email or video conference

Sustainability

- Committed to durability and sustainability – using only premium raw materials and components
- As a certified manufacturer, we offer FSC®-certified paper and board labels

Labels made by contact

In-house Prepress & Label Printing

Prepress Services

- Also known as reprographics
- The foundation of every print production
- We check your print data and prepare it for production
- In-house designers realise your design ideas

Printing Plate Production

- Label printing using flexographic machines
- In flexographic printing, the ink is transferred to the label web using a flexible printing plate (known as a cliché)
- We produce these clichés in-house, enabling extremely fast label production

Label Production

- A modern machinery fleet with (UV-LED) flexographic and digital printing machines
- Printing in up to 8 colours, including varnishing, laminating, and cold stamping
- Production and quality control carried out by experienced specialists

Labels for Industry and Commerce

Tailor-made solutions for your requirements

Whether product, goods or logistics labels – we develop label solutions tailored exactly to your needs. With materials such as paper or film, various adhesives (e.g. permanent or removable), and special features such as resistance to UV, moisture or chemicals.

Whether on rolls, sheets or fanfold: We offer various formats, surfaces and finishing options – including personal consultation. For retail, industry or logistics – at contact you'll find the right label.

Labels by contact:

- Paper, board and film labels for every application
- Various formats, adhesives & surface types
- Production of small and large volumes
- Compatible with all standard labelling and printing systems
- Personal consultation & top quality – made by contact

Label Printers

Labelling made easy – with direct thermal and thermal transfer printers from contact

From entry-level models to high-performance industrial printers with touch display: our direct thermal and thermal transfer printers ensure easy and precise label printing – whether barcodes, serial numbers, logos or variable data.

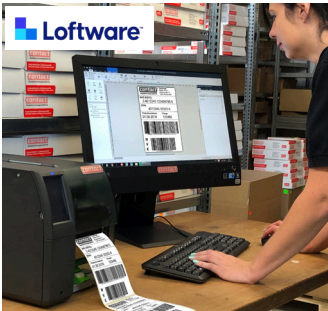

Thanks to matching software, accessories and in-house consumables such as labels and carbon ribbons, you get everything from a single source – perfectly tailored to your requirements in retail, logistics and industry.

What defines our printing systems:

- Wide range of direct thermal and thermal transfer printers
- Suitable for every print volume & label format
- Stand-alone solutions with modern touch display
- Extensive accessories & software for customised needs
- Complete package of printer, labels, ribbons & software

Carbon ribbons

Label software ,Loftware`

Automatic Labelling Machines

Efficient Product Labelling with contact Labelling Machines

Whether you need automatic dispensing systems for fast label application or print & apply systems for simultaneous printing and dispensing – our solutions deliver the highest precision and reliability for industrial use.

We design and manufacture your labelling system according to your specific requirements. Thanks to our own mechanical engineering, in-house design and premium brand components, we create modular systems that integrate seamlessly into your production environment.

Your benefits at a glance:

- Modular & flexible – tailored to your product, industry, and process
- Low-maintenance and robust – ideal for continuous operation
- Everything from a single source: labels, technology, and service
- Made in Germany – designed and manufactured in Hirschhorn
